Rules of the Road

18+ to Ride

Park Properly

No Tandem Riding

No Drinking & Riding

App Features

Safety Quiz

Lime requires all riders to take an interactive safety tutorial before riding.

ID Scan

Using Persona A.I.-powered ID verification, if fraud is detected, a video selfie is required to match the scanned ID.

Need a Ride Refresher?

Lime Responsibly.
Scan here to access a how to ride video.

Zones

All local zone mapping data is installed directly on each scooter, removing the need to rely on a cellular network to detect a geofence. The on-vehicle maps make implementation nearly instantaneous.

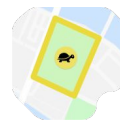

No Parking Zone

You are not allowed to end your ride in these zones.

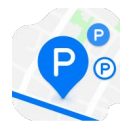

No Ride Zone

Avoid these areas. Your vehicle won't operate and you can't park here.

Slow Zone

Your vehicle will slow down to 12 mph in these zones.

Parking Pins

In some areas, riders can tap pins for a discount off their ride. In other areas, they will be required to park at pins.

Park Responsibly

Proper parking etiquette is encouraged:

- Park your Lime e-scooter upright
- Do not park on private property
- Do not obstruct ADA access, pathways for pedestrians, bicyclists or motorists
- Trips ending on Pearl Street Mall, University Hill, or CU Boulder property must be parked at specific parking groves shown in the Lime app.
