Summary

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA). The survey and its administration are standardized to assure high quality research methods and directly comparable results across The NCS communities. **The NCS captures residents' opinions within the three pillars of a community (Community Characteristics, Governance and Participation)** across eight central facets of community (Safety, Mobility, Natural Environment, Built Environment, Economy, Recreation and Wellness, Education and Enrichment and Community Engagement). This report discusses trends over time, comparing the 2016 ratings for the City of Boulder to its previous survey results in 1987, 1989, 1993, 1995, 1997, 2001, 2007, 2011 and 2014. Additional reports and technical appendices are available under separate cover.

Trend data for Boulder represent important comparison data and should be examined for improvements or declines. Deviations from stable trends over time, especially, represent opportunities for understanding how local policies, programs or public information may have **affected residents' opinions.**

Meaningful differences between survey years have been noted within the following tables as being **“higher” or “lower”** if the differences are greater than four points on the 100-point scale between the 2014 and 2016 surveys, otherwise the comparison between 2014 and 2016 are noted as being **“similar.”** 2016 was the first year Boulder conducted The NCS. Prior to 2016, the surveys NRC conducted for Boulder were custom citizen surveys, and there were some differences in question wording and in question response scales. Therefore, differences between past surveys and 2016 ratings should be reviewed cautiously, and may be areas for watchful waiting. Once Boulder conducts another iteration of The NCS, ratings will be more directly comparable.

The National Citizen Survey™

Table 1: Community Characteristics General

The NCS™ is presented by NRC in collaboration with ICMA.

NRC is a charter member of the AAPOR Transparency Initiative, providing clear disclosure of our sound and ethical survey research practices.

About

The National Citizen Survey™ (The NCS) report is about the “livability” of Boulder. The phrase “livable community” is used here to evoke a place that is not simply habitable, but that is desirable. It is not only where people do live, but where they want to live.

Great communities are partnerships of the government, private sector, community-based organizations and residents, all geographically connected. **The NCS captures residents’ opinions** within the three pillars of a community (Community Characteristics, Governance and Participation) across eight central facets of community (Safety, Mobility, Natural Environment, Built Environment, Economy, Recreation and Wellness, Education and Enrichment and Community Engagement).

The Community Livability Report provides the opinions of a representative sample of 1,426 residents of the City of Boulder. The margin of error around any reported percentage is 3% for the entire sample. The full description of methods used to garner these opinions can be found in the **Technical Appendices** provided under separate cover.

Quality of Life in Boulder

Almost all residents rated the quality of life in Boulder as excellent or good. This rating was higher than the national benchmark comparison (see Appendix B of the *Technical Appendices* provided under separate cover).

Shown below are the eight facets of community. The color of each community facet summarizes how residents rated it across the three sections of the survey that represent the pillars of a community – Community Characteristics, Governance and Participation. When most ratings across the three pillars were higher than the benchmark, the color for that facet is the darkest shade; when most ratings were lower than the benchmark, the color is the lightest shade. A mix of ratings (higher and lower than the benchmark) results in a color between the extremes.

Overall Quality of Life

In addition to a summary of ratings, the image below includes one or more stars to indicate which community facets were the most important focus areas for the community. Residents identified Natural Environment and Economy as priorities for the Boulder community in the coming two years. It is noteworthy that Boulder residents gave particularly strong ratings to both of these facets of community as well as to Recreation and Wellness. Ratings for Safety, Mobility, Built Environment, Education and Enrichment and Community Engagement were positive and similar to other communities. This overview of the key aspects of community quality provides a quick summary of where residents see exceptionally strong performance and where performance offers the greatest opportunity for improvement. Linking quality to importance offers community members and leaders a view into the characteristics of the community that matter most and that seem to be working best.

Details that support these findings are contained in the remainder of this Livability Report, starting with the ratings for Community Characteristics, Governance and Participation and ending with results for Boulder’s unique questions.

Community Characteristics

What makes a community livable, attractive and a place where people want to be?

Overall quality of community life represents the natural ambience, services and amenities that make for an attractive community. How residents rate their overall quality of life is an indicator of the overall health of a community. In the case of Boulder, 94% rated the City as an excellent or good place to live. **Respondents' ratings** of Boulder as a place to live were similar to ratings in other communities across the nation.

In addition to rating the City as a place to live, respondents rated several aspects of community quality including Boulder as a place to raise children and to retire, their neighborhood as a place to live, the overall image or reputation of Boulder and its overall appearance. About 9 in 10 respondents gave excellent or good ratings to the overall appearance of Boulder to their neighborhoods. Ratings for the overall appearance and the overall image of Boulder were higher than in comparison communities while ratings for neighborhoods, place to raise children and place to retire were similar to the national benchmarks.

Delving deeper into Community Characteristics, survey respondents rated over 40 features of the community within the eight facets of Community Livability. Almost all Boulder residents gave positive marks to all aspects of Safety, and these ratings were similar to ratings in other communities across the nation. Ratings within the facet of Mobility were mixed. Ratings for paths and walking trails, ease of walking, travel by bicycle and travel by public transportation were all higher than in comparison communities while ratings for ease of travel by car, public parking and traffic flow were lower than the benchmarks. At least 4 in 5 respondents gave excellent or good ratings to each aspect of Natural Environment and ratings for the overall natural environment and the cleanliness of Boulder were higher than the benchmarks. The facet of Built Environment also saw mixed ratings; a majority gave positive ratings to the overall quality of new development in Boulder and public places. Ratings for public

places were higher than the benchmark. However, only 10% gave positive ratings to affordable quality housing in Boulder and 20% rated housing options in Boulder as excellent or good, and these ratings were both lower than the national benchmarks. Almost all aspects of Economy were rated exceptionally strong; all received positive marks from a majority of residents and were higher than the benchmark with the exception of ratings for cost of living (10% excellent or good) which were lower than in comparison communities. All aspects of Recreation and Wellness, Education and Enrichment and Community Engagement were rated positively by at least half of the survey respondents and were similar to or higher than the national benchmarks.

Governance

How well does the government of Boulder meet the needs and expectations of its residents?

The overall quality of the services provided by Boulder as well as the manner in which these services are provided are a key component of how residents rate their quality of life. About 84% of Boulder residents rated the overall quality of City services as excellent or good, while about 48% rated the Federal government positively. Ratings for the City government and the Federal government were similar to the national benchmark comparisons.

Survey respondents also rated various aspects of Boulder’s **leadership and governance**. About half of the survey respondents gave positive ratings to the overall direction of Boulder, welcoming citizen involvement, confidence in City government, acting in the best interest of Boulder and treating all residents fairly. About 6 in 10 gave positive ratings to the value of services for taxes paid and 8 in 10 gave excellent or good ratings to the overall customer service provided by City of Boulder employees. All of these ratings were similar to ratings in comparison communities across the nation.

Respondents evaluated over 30 individual services and amenities available in Boulder. All aspects of Governance tended to be rated positively by a majority of respondents and were similar to or higher than the national benchmarks. Almost all respondents gave excellent or good ratings to: fire services, ambulance/EMS, garbage collection, recycling, Boulder open space, City parks, recreation programs, recreation centers and public libraries. Ratings for emergency preparedness, bus or transit services, recycling, drinking water, natural areas preservation, open space, City parks, recreation programs and recreation centers were higher than ratings in benchmark communities.

Participation

Are the residents of Boulder connected to the community and each other?

An engaged community harnesses its most valuable resource, its residents. The connections and trust among residents, government, businesses and other organizations help to create a sense of community, a shared sense of membership, belonging and history. A majority of respondents gave excellent or good ratings to the overall sense of community in Boulder, and this rating was similar to the national benchmark. At least three-quarters of respondents reported that they were likely to recommend living in Boulder and planned to remain in Boulder for the next five years; these rates were similar to those in other communities across the nation.

The survey included over 30 activities and behaviors for which respondents indicated how often they participated in or performed each, if at all. Rates of Participation tended to vary within facets. Rates of Participation within Mobility were particularly strong when compared to other jurisdictions; all were higher than the benchmarks. Further, more Boulder residents reported that they had recycled at home, worked in Boulder, visited a City park, participated in physical activity, attended a City-sponsored event, campaigned for an issue, cause or candidate, volunteered or participated in a club than residents in other jurisdictions. Fewer Boulder residents were NOT under housing cost stress and fewer reported participating in religious or spiritual activities when compared to other communities. All other rates of Participation were similar to the benchmarks.

Special Topics

The City of Boulder included two questions of special interest on The NCS. The first question asked respondents to rate their likelihood of using different information channels to obtain information about community events. A majority were at least somewhat likely to obtain information through mailings to their homes, the Boulder Daily Camera, City of Boulder website, community newsletters and The Colorado Daily. At least three-quarters of respondents were not at all likely to obtain information from watching City meetings or events online or on cable TV, through the City of Boulder Twitter or from BizWest.

Figure 4: Information Sources

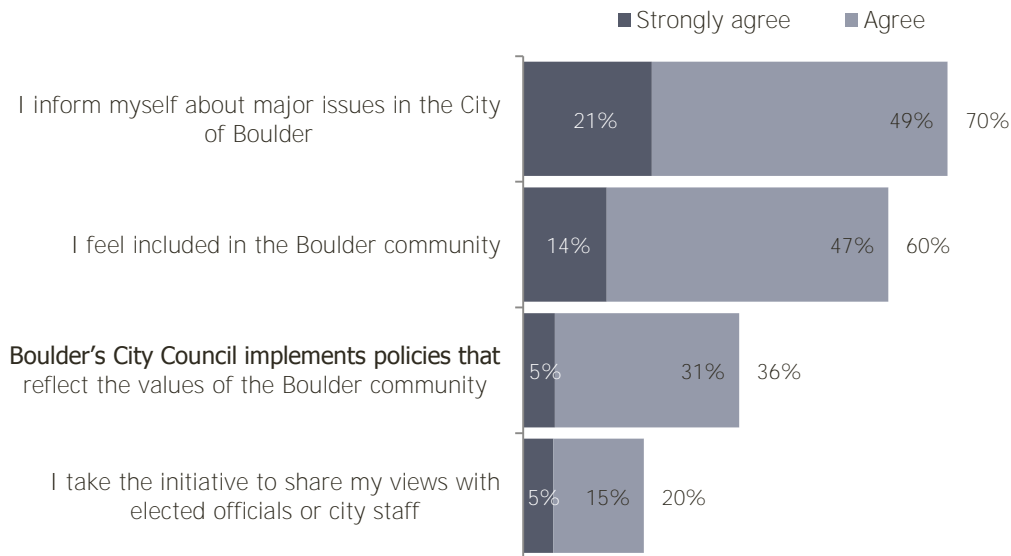

How likely, if at all, are you to use one of the following information channels to obtain information about community events such as City Council meetings, community meetings and upcoming events?

The National Citizen Survey™

The second Boulder-specific question asked residents to indicate the extent to which they agreed or disagreed with some statements about Boulder. A majority agreed that they informed themselves about major issues in the City of Boulder and felt included in the Boulder community. About one-third agreed that **Boulder's City Council** implements policies that reflect the values of the Boulder community and about 20% agreed that they take initiative to share their views with elected officials or City staff.

Figure 5: Community Involvement and Inclusivity
Please rate to what extent you agree or disagree with the following statements.

Conclusions

Quality of life is exceptionally high in Boulder

About 9 in 10 residents gave excellent or good ratings to the overall quality of life in Boulder, Boulder as a place to live, the overall image of Boulder, their neighborhoods and the overall appearance of Boulder. Further, ratings for the overall quality of life in Boulder, the overall image of Boulder and the overall appearance of Boulder were higher than the national benchmarks. At least three-quarters of residents were likely to recommend living in Boulder and planned to remain in Boulder for the next five years. Most of the aspects that aid in community livability were rated positively and were at least similar to the national benchmark comparison.

Residents value Natural Environment

Boulder's **Natural Environment** was identified as a top priority for the community and was an area that consistently received high ratings from residents. At least 4 in 5 respondents gave excellent or good ratings to the overall natural environment, cleanliness and air quality. The vast majority of residents rated services in this area positively. Ratings for Boulder's **open space**, natural areas preservation, drinking water and recycling were also rated higher than the benchmarks. Demonstrating their personal interest in this area, nearly all residents—and more than elsewhere—recycled.

Economy is a strong and important community feature

Residents indicated that the economy was an important community feature to focus on over the next two years. About 4 in 5 respondents felt very positive about the overall economic health of the community, and this rating was higher than the national benchmark. Boulder as a place to work, place to visit, employment opportunities, shopping opportunities, the overall quality of businesses and services and vibrant downtown/commercial areas all received ratings higher than ratings in other communities across the nation. **However, it's important to note that 10% gave positive ratings to the cost of living in Boulder and this rating was much lower than the national benchmark.**

Summary

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA). The survey and its administration are standardized to assure high quality research methods and directly comparable results across The NCS communities. The NCS captures residents’ opinions within the three pillars of a community (Community Characteristics, Governance and Participation) across eight central facets of community (Safety, Mobility, Natural Environment, Built Environment, Economy, Recreation and Wellness, Education and Enrichment and Community Engagement). This report summarizes Boulder’s performance in the eight facets of community livability with the “General” rating as a summary of results from the overarching questions not shown within any of the eight facets. The “Overall” represents the community pillar in its entirety (the eight facets and general).

By summarizing resident ratings across the eight facets and three pillars of a livable community, a picture of Boulder’s community livability emerges. Below, the color of each community facet summarizes how residents rated each of the pillars that support it – Community Characteristics, Governance and Participation. When most ratings were higher than the benchmark, the color is the darkest shade; when most ratings were lower than the benchmark, the color is the lightest shade. A mix of ratings (higher and lower than the benchmark) results in a color between the extremes.

Broadly, Boulder residents tended to give positive ratings to most aspects of community livability. Within the pillar of Community Characteristics, ratings within the facets of Natural Environment, Economy and Education and Enrichment tended to be higher than ratings in comparison communities. Governance ratings tended to be higher within the facets of Natural Environment and Recreation and Wellness. Mobility rates were higher than other communities within the pillar of Participation.

Summary

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA). The survey and its administration are standardized to assure high quality research methods and directly comparable results across The NCS communities. This report discusses differences in opinion of survey respondents by length of residency in Boulder, housing tenure, annual household income, race/ethnicity and age of respondent.

Responses in the following tables show only the proportion of respondents giving a certain answer; for example, the percent of **respondents who rated the quality of life as “excellent” or “good,” or the percent of respondents who attended a public meeting more than once a month.** ANOVA and chi-square tests of significance were applied to **these comparisons of survey questions. A “p-value” of 0.05 or less indicates that there is less than a 5% probability that differences observed between subgroups are due to chance; or in other words, a greater than 95% probability that the differences observed are “real.” Where differences were statistically significant, they have been shaded grey.**

The margin of error for this report is generally no greater than plus or minus three percentage points around any given percent reported for the entire sample (1,430 completed surveys). For subgroups of responses, the margin of error increases because the sample size for the subgroup is smaller. For subgroups of approximately 100 respondents, the margin of error is plus or minus 10 percentage points.

Summary

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA). The survey and its administration are standardized to assure high quality research methods and directly comparable results across The NCS communities. This report discusses differences in opinion of survey respondents by geographic areas of the City of Boulder.

Responses in the following tables show only the proportion of respondents giving a certain answer; for example, **the percent of respondents who rated the quality of life as “excellent” or “good,” or the percent of respondents who attended a public meeting more than once a month.** ANOVA and chi-square tests of significance were applied to these comparisons of survey questions. **A “p-value” of 0.05 or less indicates that there is less than a 5% probability that differences observed between geographic areas are due to chance; or in other words, a greater than 95% probability that the differences observed are “real.”** Where differences were statistically significant, they have been shaded grey.

The margin of error for this report is generally no greater than plus or minus three percentage points around any given percent reported for the entire sample (1,430 completed surveys). For each geographic area, the margin of error rises to approximately plus or minus 11 percentage points since sample sizes were approximately 257 for Central Boulder North, 86 for Central Boulder South, 137 for Crossroads & CU, 205 for East Boulder & Gunbarrel, 228 for North Boulder & Palo Park, 233 for South Boulder and 283 for Southeast Boulder.

The National Citizen Survey™

Table 1: Community Characteristics - General

Percent rating positively (e.g., excellent/good)	Geographic Area							Overall
	Central Boulder North	Central Boulder South	Crossroads & CU	East Boulder & Gunbarrel	North Boulder & Palo Park	South Boulder	Southeast Boulder

The NCS™ is presented by NRC in collaboration with ICMA.

NRC is a charter member of the AAPOR Transparency Initiative, providing clear disclosure of our sound and ethical survey research practices.

About this Report

As part of its participation in The National Citizen Survey™, the City of Boulder conducted a mailed survey of 6,000 residents. Surveys were mailed to randomly selected households in September 2016 and data were collected through October 25, 2016. After the official data collection period was over (see the report, *The National Citizen Survey: Community Livability Report, Boulder, CO, 2016*), the City made available a web-based survey to its residents through a link on the City's website. Visitors to the site were able to complete the survey from October 25-November 11 and 619 surveys were received.

This report contains the results of this administration of the web-based survey and have not been weighted to current population estimates of Boulder.

Complete Survey Responses

The following pages contain a complete set of responses to each question on the survey, excluding the “don’t know” responses. The percent of respondents giving a particular response is shown followed by the number of respondents (denoted with “N=”).

Responses excluding “don’t know”

Table 1: Question 1

Please rate each of the following aspects of quality of life in Boulder:	Excellent		Good		Fair		Poor		Total	
	%	N	%	N	%	N	%	N	%	N
Boulder as a place to live	42%	N=250	46%	N=276	11%	N=64	2%	N=11	100%	N=601
Your neighborhood as a place to live	52%	N=320	38%	N=237	9%	N=54	1%	N=5	100%	N=616

Summary

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA). The survey and its administration are standardized to assure high quality research methods and directly comparable results across The NCS communities.

As part of its participation in The National Citizen Survey™, the City of Boulder conducted a mailed and web survey (with mailed invitations) of 6,000 residents. Surveys and invitations were mailed to randomly selected households in September 2016 and data were collected through October 25, 2016. There were 1,426 completed surveys from the scientific sample. After the official data collection period was over, the City made available a web-based survey to its residents through a link on the City's website. Visitors to the site were able to complete the survey from October 25-November 11 and 619 surveys were received. This report compares the survey responses of the scientific sample and the opt-in sample.

Responses in the following tables show only the proportion of respondents giving a certain answer; for **example, the percent of respondents who rated the quality of life as “excellent” or “good,” or the percent of respondents who attended a public meeting more than once a month. ANOVA and chi-square tests of significance were applied to these comparisons of survey questions. A “p-value” of 0.05 or less indicates that there is less than a 5% probability that differences observed between geographic areas are due to chance; or in other words, a greater than 95% probability that the differences observed are “real.” Where differences were statistically significant, they have been shaded grey.**

The National Citizen Survey™

Table 1: Community Characteristics - General

Percent rating positively (e.g., excellent/good)	Survey Type	
	Scientific Sample	Opt-In Results
The overall quality of life in Boulder	92%	86%
Overall image or reputation of Boulder	86%	75%
Boulder as a place to live	94%	88%
Your neighborhood as a place to live	90%	90%
Boulder as a place to raise children	85%	85%
Boulder as a place to retire	67%	59%
Overall appearance of Boulder	91%	83%

Table 2: Community Characteristics - Safety

Percent rating positively (e.g., excellent/good, very/somewhat safe)	Survey Type	
	Scientific Sample	Opt-In Results
Overall feeling of safety in Boulder	91%	86%
In your neighborhood during the day	97%	95%
In Boulder's downtown/commercial area during the day	91%	82%

Table 3: Community Characteristics - Mobility

Percent rating positively (e.g., excellent/good, very/somewhat safe)	Survey Type	
	Scientific Sample	Opt-In Results
Overall ease of getting to the places you usually have to visit	72%	47%
Traffic flow on major streets	30%	23%
Ease of public parking	29%	26%
Ease of travel by car in Boulder	43%	29%
Ease of travel by public transportation in Boulder	69%	42%
Ease of travel by bicycle in Boulder	89%	74%
Ease of walking in Boulder	89%	80%
Availability of paths and walking trails	95%	91%

Table 4: Community Characteristics - Natural Environment

Percent rating positively (e.g., excellent/good, very/somewhat safe)	Survey Type	
	Scientific Sample	Opt-In Results
Quality of overall natural environment in Boulder	95%	90%
Air quality	87%	82%
Cleanliness of Boulder	89%	81%

Table 5: Community Characteristics - Built Environment

Percent rating positively (e.g., excellent/good, very/somewhat safe)	Survey Type	
	Scientific Sample	Opt-In Results
Overall "built environment" of Boulder (including overall design, buildings, parks and transportation systems)	74%	55%
Public places where people want to spend time	85%	71%
Variety of housing options	20%	29%
Availability of affordable quality housing	10%	17%
Overall quality of new development in Boulder	53%	34%

Table 6: Community Characteristics - Economy

Percent rating positively (e.g., excellent/good, very/somewhat safe)	Survey Type	
	Scientific Sample	Opt-In Results
Overall economic health of Boulder	83%	84%
Boulder as a place to work	81%	80%
Boulder as a place to visit	94%	94%
Employment opportunities	60%	66%
Shopping opportunities	85%	78%
Cost of living in Boulder	10%	17%
Overall quality of business and service establishments in Boulder	85%	79%
Vibrant downtown/commercial area	88%	81%

The National Citizen Survey™

Table 7: Community Characteristics - Recreation and Wellness

Percent rating positively (e.g., excellent/good, very/somewhat safe)	Survey Type	
	Scientific Sample	Opt-In Results
Health and wellness opportunities in Boulder	94%	91%
Fitness opportunities (including exercise classes and paths or trails, etc.)	96%	93%
Recreational opportunities	97%	95%
Availability of affordable quality food	73%	67%
Availability of affordable quality health care	67%	65%
Availability of preventive health services	76%	79%
Availability of affordable quality mental health care	56%	56%

Table 8: Community Characteristics - Education and Enrichment

Percent rating positively (e.g., excellent/good, very/somewhat safe)	Survey Type	
	Scientific Sample	Opt-In Results
Overall opportunities for education and enrichment	94%	92%
Availability of affordable quality child care/preschool	50%	40%
K-12 education	89%	86%
Adult educational opportunities	87%	86%
Opportunities to attend cultural/arts/music activities	86%	85%
Opportunities to participate in religious or spiritual events and activities	90%	90%

Table 9: Community Characteristics - Community Engagement

Percent rating positively (e.g., excellent/good, very/somewhat safe)	Survey Type	
	Scientific Sample	Opt-In Results
Opportunities to participate in social events and activities	86%	82%
Opportunities to volunteer	90%	93%
Opportunities to participate in community matters	76%	69%
Openness and acceptance of the community toward people of diverse backgrounds	59%	55%
Neighborliness of residents in Boulder	64%	64%

Table 10: Governance - General

Percent rating positively (e.g., excellent/good)	Survey Type	
	Scientific Sample	Opt-In Results
The City of Boulder	84%	66%
The value of services for the taxes paid to Boulder	64%	49%
The overall direction that Boulder is taking	46%	23%
The job Boulder government does at welcoming citizen involvement	55%	37%
Overall confidence in Boulder government	48%	28%
Generally acting in the best interest of the community	50%	27%
Being honest	56%	34%
Treating all residents fairly	47%	26%
Overall customer service by Boulder employees (police, receptionists, planners, etc.)	83%	70%
The Federal Government	48%	51%

Table 11: Governance - Safety

Percent rating positively (e.g., excellent/good)	Survey Type	
	Scientific Sample	Opt-In Results
Police/Sheriff services	83%	80%
Fire services	97%	97%
Ambulance or emergency medical services	91%	94%
Crime prevention	75%	69%
Fire prevention and education	87%	90%
Animal control	74%	68%
Emergency preparedness (services that prepare the community for natural disasters or other emergency situations)	80%	76%

The National Citizen Survey™

Table 12: Governance - Mobility

Percent rating positively (e.g., excellent/good)	Survey Type	
	Scientific Sample	Opt-In Results
Traffic enforcement	58%	49%
Street repair	47%	32%
Street cleaning	67%	45%
Street lighting	70%	63%
Snow removal	54%	39%
Sidewalk maintenance	62%	48%
Traffic signal timing	52%	41%
Bus or transit services	82%	64%

Table 13: Governance - Natural Environment

Percent rating positively (e.g., excellent/good)	Survey Type	
	Scientific Sample	Opt-In Results
Garbage collection	91%	91%
Recycling	92%	92%
Yard waste pick-up	81%	78%
Drinking water	87%	86%
Preservation of natural areas such as open space, farmlands and greenbelts	88%	79%
Boulder open space	94%	88%

Table 14: Governance - Built Environment

Percent rating positively (e.g., excellent/good)	Survey Type	
	Scientific Sample	Opt-In Results
Storm drainage	76%	67%
Sewer services	88%	84%
Power (electric and/or gas) utility	83%	82%
Water utility billing	82%	78%
Land use, planning and zoning	52%	29%
Code enforcement (weeds, abandoned buildings, etc.)	56%	35%
Cable television	52%	52%

Table 15: Governance - Economy

Percent rating positively (e.g., excellent/good)	Survey Type

Economic development	65%	56%

Table 16: Governance - Recreation and Wellness

Percent rating positively (e.g., excellent/good)	Survey Type	
	Scientific Sample	Opt-In Results
City parks	95%	89%
Recreation programs or classes	92%	91%
Recreation centers or facilities	92%	89%
Health services	83%	82%

Table 17: Governance - Education and Enrichment

Percent rating positively (e.g., excellent/good)	Survey Type	
	Scientific Sample	Opt-In Results
Public library services	94%	92%
City-sponsored special events	82%	75%

Table 18: Governance - Community Engagement

Percent rating positively (e.g., excellent/good)	Survey Type	
	Scientific Sample	Opt-In Results
Public information services	79%	71%

The National Citizen Survey™

Table 19: Participation General

Percent rating positively (e.g., always/sometimes, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
Sense of community	64%	56%
Recommend living in Boulder to someone who asks	81%	69%
Remain in Boulder for the next five years	78%	82%
Contacted the City of Boulder (in-person, phone, email or web) for help or information	43%	68%

Table 20: Participation - Safety

Percent rating positively (e.g., always/sometimes, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
Was NOT the victim of a crime	93%	89%
Did NOT report a crime	85%	80%
Stocked supplies in preparation for an emergency	19%	25%

Table 21: Participation - Mobility

Percent rating positively (e.g., always/sometimes, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
Walked or biked instead of driving	91%	85%
Carpooled with other adults or children instead of driving alone	68%	62%
Used bus, rail, subway or other public transportation instead of driving	74%	65%

Table 22: Participation - Natural Environment

Percent rating positively (e.g., always/sometimes, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
Recycle at home	98%	100%
Made efforts to make your home more energy efficient	74%	80%
Made efforts to conserve water	83%	90%

Table 23: Participation - Built Environment

Percent rating positively (e.g., always/sometimes, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
NOT under housing cost stress	55%	70%
Did NOT observe a code violation	61%	48%

Table 24: Participation - Economy

Percent rating positively (e.g., always/sometimes, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
Purchase goods or services from a business located in Boulder	99%	99%
Economy will have positive impact on income	33%	31%
Work in Boulder	70%	62%

Table 25: Participation - Recreation and Wellness

Percent rating positively (e.g., always/sometimes, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
Used Boulder recreation centers or their services	63%	63%
Visited a neighborhood park or City park	96%	96%
Eat at least 5 portions of fruits and vegetables a day	91%	94%
Participate in moderate or vigorous physical activity	95%	97%
Reported being in "very good" or "excellent" health	81%	83%

Table 26: Participation - Education and Enrichment

Percent rating positively (e.g., always/sometimes, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
Used Boulder public libraries or their services	69%	77%
Participated in religious or spiritual activities in Boulder	33%	39%
Attended a City-sponsored event	72%	75%

The National Citizen Survey™

Table 27: Participation - Community Engagement

Percent rating positively (e.g., always/sometimes, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
Campaigned or advocated for an issue, cause or candidate	34%	56%
Contacted Boulder elected officials (in-person, phone, email or web) to express your opinion	18%	52%
Volunteered your time to some group/activity in Boulder	52%	69%
Participated in a club	38%	44%
Talked to or visited with your immediate neighbors	90%	98%
Done a favor for a neighbor	76%	91%
Attended a local public meeting	25%	49%
Watched (online or on television) a local public meeting	21%	47%
Read or watch local news (via television, paper, computer, etc.)	78%	93%
Vote in local elections	88%	98%

Table 28: Community Focus Areas

Percent rating positively (e.g., essential/very important)	Survey Type	
	Scientific Sample	Opt-In Results
Overall feeling of safety in Boulder	73%	73%
Overall ease of getting to the places you usually have to visit	80%	84%
Quality of overall natural environment in Boulder	86%	88%
Overall "built environment" of Boulder (including overall design, buildings, parks and transportation systems)	82%	84%
Health and wellness opportunities in Boulder	64%	62%
Overall opportunities for education and enrichment	70%	62%
Overall economic health of Boulder	85%	71%
Sense of community	72%	77%

Table 29: Boulder Specific Questions

Percent rating positively (e.g., excellent/good, more than once a month, yes)	Survey Type	
	Scientific Sample	Opt-In Results
Ability to start or grow a business	65%	65%
Made efforts to reduce your energy consumption	89%	89%
Visited open space and mountain parks	96%	97%
Gathering feedback from residents on new policies or projects	50%	29%
Conducting public processes	56%	30%

Table 30: Information Sources

How likely, if at all, are you to use one of the following information channels to obtain information about community events such as City Council meetings, community meetings and upcoming events? (very likely/likely)	Survey Type	
	Scientific Sample	Opt-In Results
City of Boulder website (www.bouldercolorado.gov)	57%	68%
City of Boulder Facebook Page	13%	15%
City of Boulder Twitter	9%	10%
City of Boulder NextDoor neighborhood postings	22%	60%
City of Boulder online video (e.g. YouTube, Vimeo, webstreaming)	10%	10%
Boulder Daily Camera	62%	68%
The Colorado Daily	27%	19%
BizWest (formerly Boulder County Business Report)	6%	8%
Inserts in the water utility bill	23%	25%
Mailings to your home address	58%	59%
Listserves (where you sign up to be part of a group receiving emails from the city)	20%	42%
Community Newsletter	36%	39%
Watch city meetings or events online through cable TV Channel 8 (including webstreaming, HD880 and BoulderChannel8.com)	8%	17%

The National Citizen Survey™

Table 31: Community Involvement and Inclusivity

Please rate the extent to which you agree or disagree with the following statements (strongly agree/agree)	Survey Type	
	Scientific Sample	Opt-In Results
I feel included in the Boulder community	60%	48%
I inform myself about major issues in the City of Boulder	70%	91%
I take the initiative to share my views with elected officials or city staff	20%	54%
Boulder's City Council implements policies that reflect the values of the Boulder community	36%	21%

Land line	10%	N=137
Both	9%	N=128
Total	100%	N=1350

Appendix B: Benchmark Comparisons

Comparison Data

NRC’s database of comparative resident opinion is comprised of resident perspectives gathered in surveys from over 500 communities whose residents evaluated the same kinds of topics on **The National Citizen Survey™**. The comparison evaluations are from the most recent survey completed in each community; most communities conduct surveys every year or in alternating years. NRC adds the latest results quickly upon survey completion, keeping the benchmark data fresh and relevant. The communities in the database represent a wide geographic and population range. The City of Boulder chose to have three sets of comparisons made. The first set of comparisons is to the entire database (national benchmarks), the second is to all other jurisdictions on the Front Range of Colorado from NRC’s database, and the third set of benchmark comparisons is based on university communities with populations ranging from 50,000 to 150,000.

Interpreting the Results

Ratings are compared when there are at least five communities in which a similar question was asked. Where comparisons are available, four columns are provided in the table. The first column is Boulder’s “percent positive.” The percent positive is the combination of the top two most positive response options (i.e., “excellent” and “good,” “very safe” and “somewhat safe,” “essential” and “very important,” etc.), or, in the case of resident behaviors/participation, the percent positive represents the proportion of respondents indicating “yes” or participating in an activity at least once a month. The second column is the rank assigned to Boulder’s rating among communities where a similar question was asked. The third column is the number of communities that asked a similar question. The final column shows the comparison of Boulder’s rating to the benchmark.

In that final column, Boulder’s results are noted as being “higher” than the benchmark, “lower” than the benchmark or “similar” to the benchmark, meaning that the average rating given by Boulder residents is statistically similar to or different (greater or lesser) than the benchmark. More extreme differences are noted as “much higher” or “much lower.”

Benchmark Database Characteristics	
Region	Percent
New England	3%
Middle Atlantic	5%
East North Central	15%
West North Central	13%
South Atlantic	22%
East South Central	3%
West South Central	7%
Mountain	16%
Pacific	16%
Population	Percent
Less than 10,000	10%
10,000 to 24,999	22%
25,000 to 49,999	23%
50,000 to 99,999	22%
100,000 or more	23%

Appendix C: Detailed Survey Methods

The National Citizen Survey (The NCS™), conducted by National Research Center, Inc., was developed to provide communities an accurate, affordable and easy way to assess and interpret resident opinion about important local topics. Standardization of common questions and survey methods provide the rigor to assure valid results, and each community has enough flexibility to construct a customized version of The NCS.

Results offer insight into residents' perspectives about the community as a whole, including local amenities, services, public trust, resident participation and other aspects of the community in order to support budgeting, land use and strategic planning and communication with residents. Resident demographic characteristics permit comparison to the Census as well as comparison of results for different subgroups of residents. The City of Boulder funded this research. Please contact Jean Gatzka of the City of Boulder at gatzaj@bouldercolorado.gov if you have any questions about the survey.

Survey Validity

The question of survey validity has two parts: 1) how can a community be confident that the results from those who completed the questionnaire are representative of the results that would have been obtained had the survey been administered to the entire population? and 2) how closely do the perspectives recorded on the survey reflect what residents really believe or do?

To answer the first question, the best survey research practices were used for the resources spent to ensure that the results from the survey respondents reflect the opinions of residents in the entire community. These practices include:

- Using a mail-out/mail-back methodology, which typically gets a higher response rate than phone for the same dollars spent. A higher response rate lessens the worry that those who did not respond are different than those who did respond.
- Selecting households at random within the community to receive the survey to ensure that the households selected to receive the survey are representative of the larger community.
- Over-sampling multi-family housing units to improve response from hard-to-reach, lower income or younger apartment dwellers.
- Selecting the respondent within the household using an unbiased sampling procedure; in this case, the "birthday method." The cover letter included an instruction requesting that the respondent in the household be the adult (18 years old or older) who most recently had a birthday, irrespective of year of birth.
- Contacting potential respondents three times to encourage response from people who may have different opinions or habits than those who would respond with only a single prompt.
- Inviting response in a compelling manner (using appropriate letterhead/logos and a signature of a visible leader) to appeal to recipients' sense of civic responsibility.
- Providing a pre-addressed, postage-paid return envelope.
- Offering the survey in Spanish or other language when requested by a given community.
- Weighting the results to reflect the demographics of the population.

The answer to the second question about how closely the perspectives recorded on the survey reflect what residents really believe or do is more complex. Resident responses to surveys are influenced by a variety of factors. For questions about service quality, residents' expectations for service quality play a role as well as the "objective" quality of the service provided, the way the resident perceives the entire community (that is, the context in which the service is provided), the scale on which the resident is asked to record his or her opinion and, of course, the opinion, itself, that a resident holds about the service. Similarly a resident's report of certain behaviors is colored by what he or she believes is the socially desirable response (e.g., reporting tolerant behaviors toward "oppressed groups," likelihood of voting for a tax increase for services to poor people, use of alternative modes of travel to work besides the single occupancy vehicle), his or her memory of the actual behavior (if it is not a question speculating about future actions, like a vote), his or her confidence that he or she can be honest without suffering any negative consequences (thus the need for anonymity) as well as the actual behavior itself.

How closely survey results come to recording the way a person really feels or behaves often is measured by the coincidence of reported behavior with observed current behavior (e.g., driving habits), reported intentions to behave with observed future behavior (e.g., voting choices) or reported opinions about current community quality

The National Citizen Survey™

with objective characteristics of the community (e.g., feelings of safety correlated with rates of crime). There is a body of scientific literature that has investigated the relationship between reported behaviors and actual behaviors. Well-conducted surveys, by and large, do capture true respondent behaviors or intentions to act with great accuracy. Predictions of voting outcomes tend to be quite accurate using survey research, as do reported behaviors that are not about highly sensitive issues (e.g., family abuse or other illegal or morally sanctioned activities). For self-reports about highly sensitive issues, statistical adjustments can be made to correct for the respondents' tendency to report what they think the "correct" response should be.

Research on the correlation of resident opinion about service quality and "objective" ratings of service quality vary, with some showing stronger relationships than others. NRC's own research has demonstrated that residents who report the lowest ratings of street repair live in communities with objectively worse street conditions than those who report high ratings of street repair (based on road quality, delay in street repair, number of road repair employees). Similarly, the lowest rated fire services appear to be "objectively" worse than the highest rated fire services (expenditures per capita, response time, "professional" status of firefighters, breadth of services and training provided). Resident opinion commonly reflects objective performance data but is an important measure on its own. NRC principals have written, "If you collect trash three times a day but residents think that your trash haul is lousy, you still have a problem."

Survey Sampling

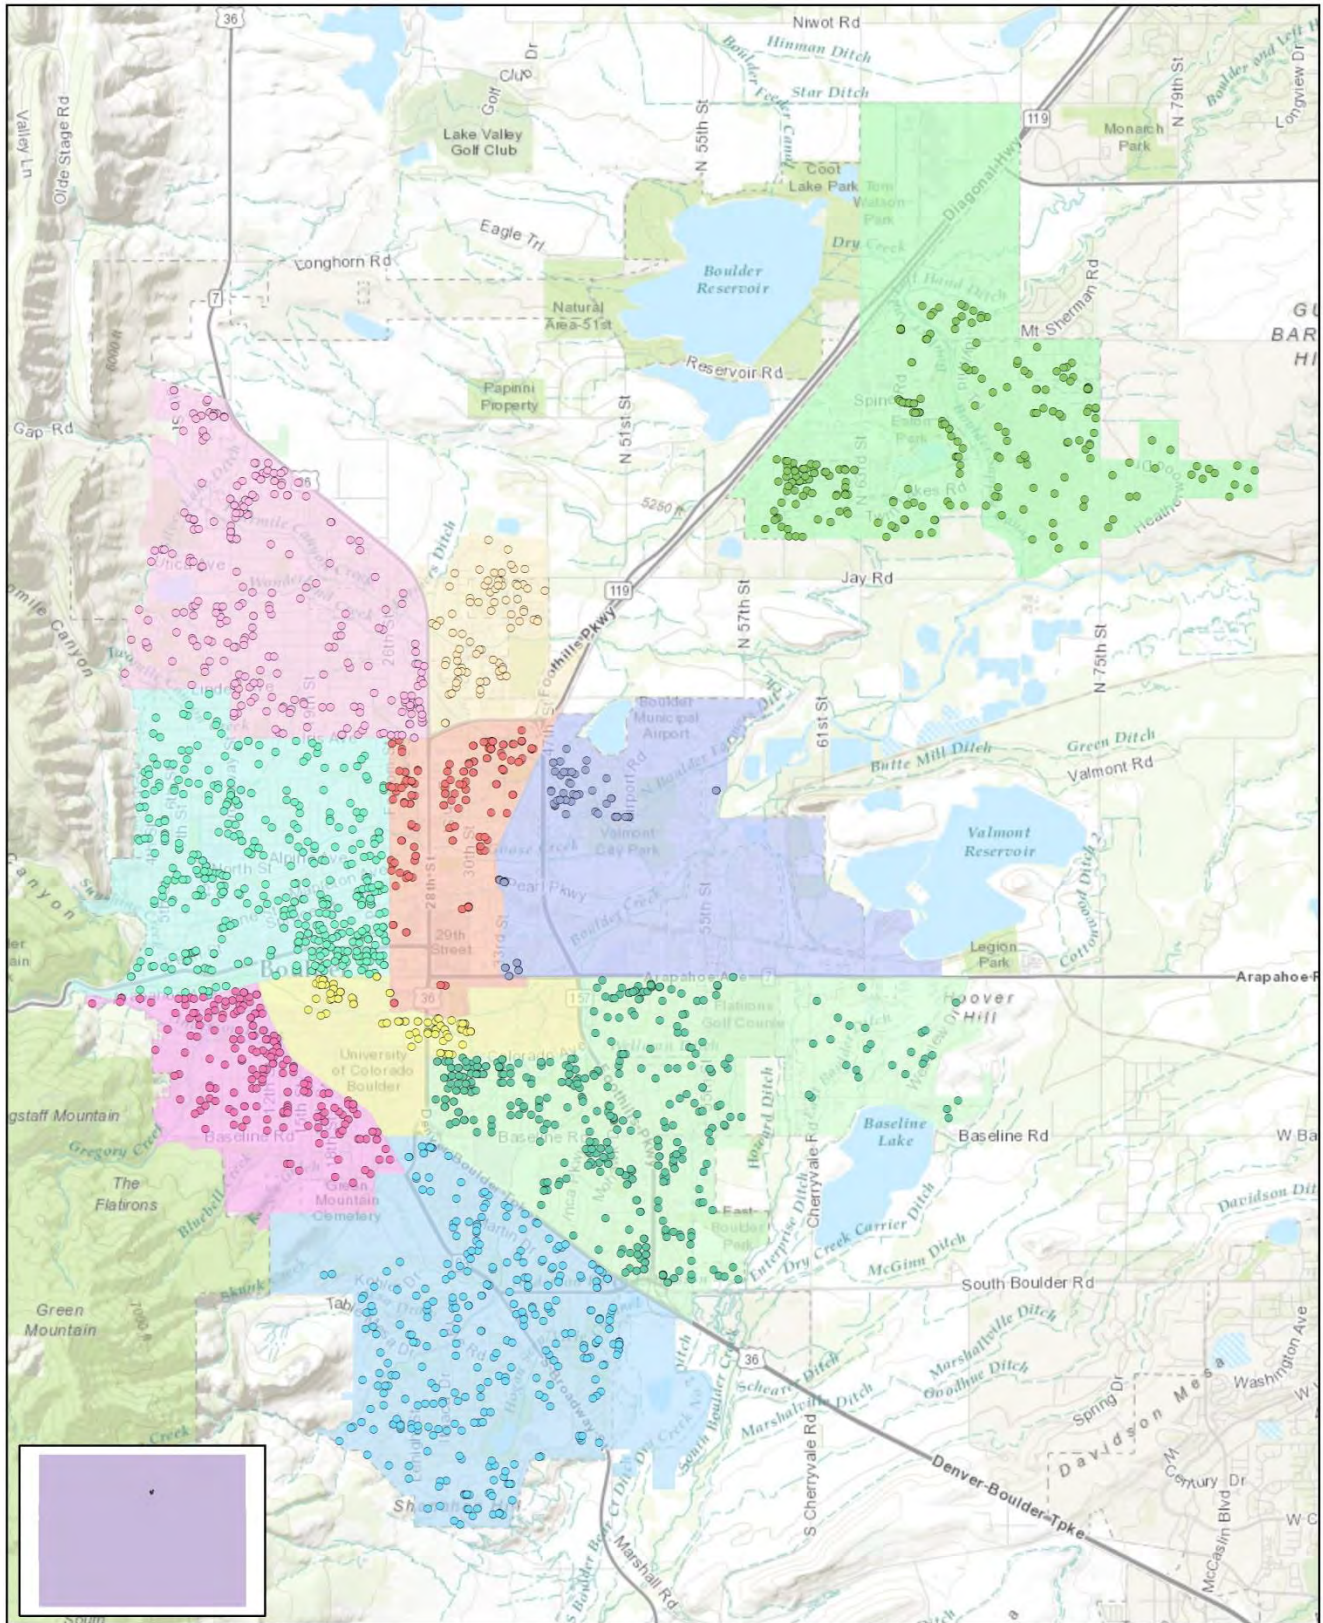

"Sampling" refers to the method by which households were chosen to receive the survey. All households within the City of Boulder were eligible to participate in the survey. A list of all households within the zip codes serving Boulder was purchased based on updated listings from the United States Postal Service. Since some of the zip codes that serve the City of Boulder households may also serve addresses that lie outside of the community, the exact geographic location of each housing unit was compared to community boundaries using the most current municipal boundary file (updated on a quarterly basis) and addresses located outside of the City of Boulder boundaries were removed from consideration. Each address identified as being within City boundaries was further identified as being within one of 10 geographic sub areas of Boulder.

To choose the 6,000 survey recipients, a systematic sampling method was applied to the list of households previously screened for geographic location. Systematic sampling is a procedure whereby a complete list of all possible households is culled, selecting every *Nth* one, giving each eligible household a known probability of selection, until the appropriate number of households is selected. Multi-family housing units were over sampled as residents of this type of housing typically respond at lower rates to surveys than do those in single-family housing units. Figure 1 displays a map of the 3,000 households selected to receive the survey via mail with options to complete the survey by mail or by online. Figure 2 shows a map of the 3,000 households selected to receive mailed invitations to complete the survey online. In general, because of the random sampling techniques used, the displayed sampling density will closely mirror the overall housing unit density (which may be different from the population density). While the theory of probability assumes no bias in selection, there may be some minor variations in practice (meaning, an area with only 15% of the housing units might be sampled at an actual rate that is slightly above or below that).

An individual within each household was selected using the birthday method. The birthday method selects a **person within the household by asking the "person whose birthday has most recently passed" to complete the questionnaire.** The underlying assumption in this method is that day of birth has no relationship to the way people respond to surveys. This instruction was contained in the cover letter accompanying the questionnaire.

Survey Administration and Response

Selected households received three mailings, one week apart, beginning on September 6, 2016. For the 3,000 households that were selected to receive the surveys via mail with mail or web options for completion; the first mailing was a prenotification postcard announcing the upcoming survey. The next mailing contained a letter from the Mayor inviting the household to participate, a questionnaire and a postage-paid return envelope. The final mailing contained a reminder letter, another survey and a postage-paid return envelope. The second cover letter asked those who had not completed the survey to do so and those who had already done so to refrain from turning in another survey. The remaining 3,000 households had the option to complete the survey online only. Their mailed invitations were sent on the same schedule as the 3,000 households that had the option to complete the survey via mail or web. The first mailing was a postcard announcing the upcoming survey, the next mailing contained a letter from the Mayor and the final mailing was another postcard. All mailings for the web-only sample contained the web link. All mailings also contained 6-digit codes for the survey recipients to enter online to prevent any duplicate responses.

About 5% of the 6,000 surveys mailed were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the remaining 5,679 households that received the survey, 1,426 completed the survey, providing an overall response rate of 25%. Responses were tracked by area; response rates by geographic area ranged from 14% to 33%. The following table shows the overall response rates by geographic area; combining both the mailed and online scientific surveys. The overall response rate for the mailed survey was 28% and the overall response rate for the online only survey was 23%.

Table 83: Survey Response Rates by Geographic Area

	Number mailed	Undeliverable	Eligible	Returned	Response rate
Central Boulder North	1080	75	1,005	257	26%
Central Boulder South	482	18	464	86	19%

Gunbarrel	608	15	593	146	25%
North Boulder	623	15	608	173	28%
Palo Park	166	0	166	55	33%
South Boulder	727	17	710	233	33%
Southeast Boulder	1173	124	1,049	282	27%
Overall	6,000	321	5,679	1,426	25%

Confidence Intervals

It is customary to describe the precision of estimates made from surveys by a “level of confidence” and accompanying “confidence interval” (or margin of error). A traditional level of confidence, and the one used here, is 95%. The 95% confidence interval can be any size and quantifies the sampling error or imprecision of the survey results because some residents’ opinions are relied on to estimate all residents’ opinions.¹

The margin of error for the City of Boulder survey is no greater than plus or minus three percentage points around any given percent reported for the entire sample (1,426 completed surveys).

For subgroups of responses, the margin of error increases because the sample size for the subgroup is smaller. For subgroups of approximately 100 respondents, the margin of error is plus or minus 10 percentage points.

¹ A 95% confidence interval indicates that for every 100 random samples of this many residents, 95 of the confidence intervals created will include the “true” population response. This theory is applied in practice to mean that the “true” perspective of the target population lies within the confidence interval created for a single survey. For example, if 75% of residents rate a service as “excellent” or “good,” then the 4% margin of error (for the 95% confidence interval) indicates that the range of likely responses for the entire community is between 71% and 79%. This source of uncertainty is called sampling error. In addition to sampling error, other sources of error may affect any survey, including the non-response of residents with opinions different from survey responders. Though standardized on The NCS, on other surveys, differences in question wording, order, translation and data entry, as examples, can lead to somewhat varying results.

Survey Processing (Data Entry)

Upon receipt, completed surveys were assigned a unique identification number. Additionally, each survey was reviewed and “cleaned” as necessary. For example, a question may have asked a respondent to pick two items out of a list of five, but the respondent checked three; in this case, NRC would use protocols to randomly choose two of the three selected items for inclusion in the dataset.

All surveys then were entered twice into an electronic dataset; any discrepancies were resolved in comparison to the original survey form. Range checks as well as other forms of quality control were also performed.

Survey Data Weighting

The demographic characteristics of the survey sample were compared to those found in the 2010 Census and American Community Survey estimates for adults in the City of Boulder. The primary objective of weighting survey data is to make the survey sample reflective of the larger population of the community. The characteristics used for weighting were housing tenure, housing unit type and sex and age. The results of the weighting scheme are presented in the following table.

Table 84: Boulder, CO 2016 Weighting Table

Characteristic	Population Norm	Unweighted Data	Weighted Data
Housing			
Rent home	52%	30%	51%
Own home	48%	70%	49%
Detached unit	46%	55%	47%
Attached unit	54%	45%	53%
Race and Ethnicity			
White	89%	90%	87%
Not white	11%	10%	13%
Not Hispanic	93%	96%	95%
Hispanic	7%	4%	5%
Sex and Age			
Female	48%	53%	48%
Male	52%	47%	52%
18-34 years of age	49%	18%	48%
35-54 years of age	28%	31%	28%
55+ years of age	23%	51%	23%
Females 18-34	22%	9%	22%
Females 35-54	14%	16%	14%
Females 55+	12%	28%	12%
Males 18-34	27%	9%	11%
Males 35-54	14%	14%	20%
Males 55+	11%	23%	18%
Area			
Central Boulder North	17%	18%	18%
Central Boulder South	8%	6%	7%
Colorado University	4%	3%	5%
Crossroads	8%	7%	8%
East Boulder	4%	4%	4%
Gunbarrel	11%	10%	9%
North Boulder	12%	12%	9%
Palo Park	3%	4%	3%
South Boulder	14%	16%	16%
Southeast Boulder	18%	20%	20%

Survey Data Analysis and Reporting

The survey dataset was analyzed using the Statistical Package for the Social Sciences (SPSS). For the most part, **the percentages presented in the reports represent the “percent positive.”** The percent positive is the combination of the top two most positive response options (i.e., “excellent” and “good,” “very safe” and “somewhat safe,” “essential” and “very important,” etc.), or, in the case of resident behaviors/participation, the percent positive represents the proportion of respondents indicating “yes” or participating in an activity at least once a month.

On many of the questions in the survey respondents may answer “don’t know.” The proportion of respondents giving this reply is shown in the full set of responses included in Appendix A. However, these responses have been removed from the analyses presented in the reports. In other words, the tables and graphs display the responses from respondents who had an opinion about a specific item.

Appendix D: Survey Materials

Dear Boulder Resident,

Estimado Residente de Boulder,

It won't take much of your time to make a big difference!

¡No le tomará mucho de su tiempo para marcar una gran diferencia!

Your household has been randomly selected to participate in a survey about your community. Your survey will arrive in a few days.

Su hogar ha sido elegido al azar para participar en una encuesta sobre su comunidad. Su encuesta le llegará dentro de pocos días.

Thank you for helping create a better City!

¡Gracias por ayudar a crear una Boulder mejor!

Sincerely,

Atentamente,

Suzanne Jones
Mayor/Alcalde

CITY OF BOULDER OFFICE OF THE CITY COUNCIL

Mayor Suzanne Jones
Mayor ProTem Mary Young

Council Members: Matt Appelbaum, Aaron Brockett, Jan Burton, Lisa Morzel, Andrew Shoemaker, Sam Weaver, Bob Yates

September 2016

Dear City of Boulder Resident:

Please help us shape the future of Boulder! You have been selected at random to participate in the 2016 Boulder Community Survey.

Please take a few minutes to fill out the enclosed survey. Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed. Your feedback will help Boulder make decisions that affect our City.

A few things to remember:

- **Your responses are completely anonymous.**
- In order to hear from a diverse group of residents, the adult 18 years or older in your household who most recently had a birthday should complete this survey.
- **You can complete the survey online. Just go to: www.n-r-c.com/survey/boulderncs.htm and enter your unique password. Your password can be found in the upper right-hand corner of this page.**

If you have any questions about the survey please call 303-441-4907.

Thank you for your time and participation!

Sincerely,

Suzanne Jones
Mayor

Estimado Residente de la Ciudad de Boulder:

¡Por favor ayúdenos a moldear el futuro de Boulder! Usted ha sido seleccionado al azar para participar en la Encuesta de Ciudadanos de Boulder del 2016.

Por favor tome unos minutos para completar la encuesta adjunta; si usted preferiría completar la encuesta en español, por favor siga las instrucciones abajo para acceder a la encuesta en español por medio de la red. Su participación en esta encuesta es muy importante – especialmente porque su hogar es uno de solamente un número pequeño de hogares que se están encuestando. Sus observaciones le ayudarán a Boulder tomar decisiones que afectarán a nuestra ciudad.

Algunas cosas para recordar:

- **Sus respuestas son completamente anónimas.**
- Para poder escuchar a un grupo diverso de residentes, el adulto de 18 años o más en su hogar que haya celebrado su cumpleaños más recientemente debe completar esta encuesta.
- **También puede completar la encuesta en español en línea. Visite: www.n-r-c.com/survey/boulderncs.htm e ingrese su contraseña única. Puede se encuentra la contraseña en la esquina derecho superior de esta página.**

Para la versión en español haga clic en “Español” en la esquina superior a mano derecha.

Si tiene alguna pregunta sobre la encuesta por favor llame al 303-441-4907.

¡Gracias por su tiempo y participación!

Atentamente,

CITY OF BOULDER OFFICE OF THE CITY COUNCIL

Mayor Suzanne Jones
Mayor ProTem Mary Young

Council Members: Matt Appelbaum, Aaron Brockett, Jan Burton, Lisa Morzel, Andrew Shoemaker, Sam Weaver, Bob Yates

September 2016

Dear City of Boulder Resident:

Here's a second chance if you haven't already responded to the 2016 Boulder Community Survey! **(If you completed it and sent it back, we thank you for your time and ask you to recycle this survey. Please do not respond twice.)**

Please help us shape the future of Boulder! You have been selected at random to participate in the 2016 Boulder Community Survey.

Please take a few minutes to fill out the enclosed survey. Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed. Your feedback will help Boulder make decisions that affect our City.

A few things to remember:

- **Your responses are completely anonymous.**
- In order to hear from a diverse group of residents, the adult 18 years or older in your household who most recently had a birthday should complete this survey.
- **You can complete the survey online. Just go to: www.n-r-c.com/survey/boulderncs.htm and enter your unique password. Your password can be found in the upper right-hand corner of this page.**

If you have any questions about the survey please call 303-441-4907.

Thank you for your time and participation!

Sincerely,

Suzanne Jones
Mayor

Estimado Residente de la Ciudad de Boulder:

¡Aquí tiene una segunda oportunidad si usted aún no ha respondido a la Encuesta de Ciudadanos de Boulder del 2016! **(Si usted la completó y la devolvió, le damos las gracias por su tiempo y le pedimos que recicle esta encuesta. Por favor no responda dos veces.)**

¡Por favor ayúdenos a moldear el futuro de Boulder! Usted ha sido seleccionado al azar para participar en la Encuesta de Ciudadanos de Boulder del 2016.

Por favor tome unos minutos para completar la encuesta adjunta; si usted preferiría completar la encuesta en español, por favor siga las instrucciones abajo para acceder a la encuesta en español por medio de la red. Su participación en esta encuesta es muy importante – especialmente porque su hogar es uno de solamente un número pequeño de hogares que se están encuestando. Sus observaciones le ayudarán a Boulder tomar decisiones que afectarán a nuestra ciudad.

Algunas cosas para recordar:

- **Sus respuestas son completamente anónimas.**
- Para poder escuchar a un grupo diverso de residentes, el adulto de 18 años o más en su hogar que haya celebrado su cumpleaños más recientemente debe completar esta encuesta.
- **También puede completar la encuesta en español en línea. Visite: www.n-r-c.com/survey/boulderncs.htm e ingrese su contraseña única. Puede se encuentra la contraseña en la esquina derecho superior de esta página.**

Para la versión en español haga clic en "Español" en la esquina superior a mano derecha.

Si tiene alguna pregunta sobre la encuesta por favor llame al 303-441 -4907.

¡Gracias por su tiempo y participación!

Atentamente,

The City of Boulder 2016 Community Survey

Please complete this questionnaire if you are the adult (age 18 or older) in the household who most recently had a birthday. The adult's year of birth does not matter. Please select the response (by circling the number or checking the box) that most closely represents your opinion for each question. Your responses are anonymous and will be reported in group form only.

1. Please rate each of the following aspects of quality of life in Boulder:

	<i>Excellent</i>	<i>Good</i>	<i>Fair</i>	<i>Poor</i>	<i>Don't know</i>

September 2016

Dear City of Boulder Resident:

Please help us shape the future of Boulder! You have been selected at random to participate in the 2016 Boulder Community Survey.

Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed. Your feedback will help Boulder make decisions that affect our City.

A few things to remember:

- **Your responses are completely anonymous.**
- In order to hear from a diverse group of residents, the adult 18 years or older in your household who most recently had a birthday should complete this survey.
- **Please complete the survey online at: www.n-r-c.com/survey/boulder2016.htm and enter your unique password. Your password can be found in the upper right-hand corner of this page.**

If you have any questions about the survey please call 303-441-4907.

Thank you for your time and participation!

Sincerely,

Suzanne Jones
Mayor

Estimado Residente de la City de Boulder:

¡Por favor ayúdenos a moldear el futuro de Boulder! Usted ha sido seleccionado al azar para participar en la Encuesta de Ciudadanos de Boulder del 2016.

Su participación en esta encuesta es muy importante – especialmente porque su hogar es uno de solamente un número pequeño de hogares que se están encuestando. Sus observaciones le ayudarán a Boulder tomar decisiones que afectarán a nuestro City.

Algunas cosas para recordar:

- **Sus respuestas son completamente anónimas.**
- Para poder escuchar a un grupo diverso de residentes, el adulto de 18 años o más en su hogar que haya celebrado su cumpleaños más recientemente debe completar esta encuesta.
