Boulder Valley Comprehensive Plan (BVCP)

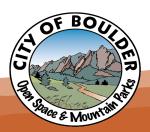

VISION

The Boulder Valley community honors its history and legacy of planning for a livable community surrounded by open space and rural lands while striving together to create and preserve a truly special place that is sustainable, resilient, equitable and inclusive – now and for future generations.

NATURAL ENVIRONMENT

The policies in this section support the following city and county goals related to the conservation and preservation of land, water, air resources and pollution prevention and climate change and resilience:

- Protecting Native Ecosystems & Biodiversity;
- Enhancing Urban Environmental Quality;
- Protecting Geologic Resources & Reducing Risks from Natural Hazards; and
- Sustaining & Improving Water & Air Quality.

DEFINITIONS:

The following definitions were provided within the Master Plan.

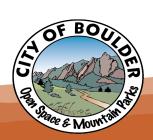

MASTER PLAN COMPONENT	DEFINITION
Open Space Purposes in the City Charter	Approved by city voters in 1986, these serve as the fundamental guidance for managing open space lands.
Master Plan Focus Areas	These management themes describe what staff and the community should focus on for the next 10 years, with an eye to the next 50 years. They were derived from public and staff input, and unanimously adopted by City Council in July 2018.
Value Statements	Developed through broad community and staff engagement, these reflect what we find important about OSMP. Corresponding to each focus area, they help us understand each management theme, and motivate us to consider the open space values we all have in common.
Outcomes	These aspirational goals for OSMP describe the overall desired outcomes for each focus area. These were drafted with staff and public input and refined with guidance from the Open Space Board of Trustees.
Strategies	These describe management approaches for achieving desired outcomes. These were drafted with staff and public input and refined with guidance from the Open Space Board of Trustees and City Council.
Implementation Priorities	With input from the public, OSBT and City Council, ten strategies have been prioritized as Tier 1 – or most important to emphasize, especially in the first years of Master Plan implementation. Further explanation of implementation priorities is provided in Section 4 of the Master Plan.

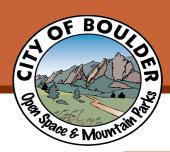

City Charter

OUR SHARED VALUES AND FOCUS AREAS

Boulder's system of Open Space and Mountain Parks is a powerful and enduring reflection of Boulder's values. The Boulder community has spent decades protecting natural lands, and in 1986, voters approved an amendment to the City Charter to define open space purposes and guide management. The **City Charter** states that open space shall be acquired, maintained, preserved, retained, and used only for the following purposes:

- a) natural areas with features or species of special value;
- b) water, landscapes and ecosystems;
- c) passive recreation;
- d) agriculture;
- e) limiting sprawl;
- f) urban shaping;
- g) floodplain protection; and
- h) aesthetics and quality of life.

Community Values & Outcomes through the Master Plan

Through the OSMP Master Plan process, community members confirmed the lasting value of these charter purposes, demonstrating that preservation and protection of the natural environment is an enduring, core community value.

- Members of the public submitted thousands of comments that informed the values, outcomes and strategies;
- More than 1,300 individuals completed and returned a mailed statistically valid survey in spring 2019.
- OSMP staff hosted seven community events and two drop-in listening sessions with a combined total of more than 900 attendees;
- Staff engaged over 1,400 people who are not typically heard from during OSMP engagement processes, including members of the Latinx community, people experiencing disabilities and youth; and

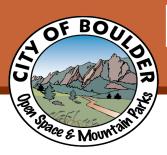

Through this collaborative process, the five focus areas value statements merged community voices with those of OSMP staff, the Open Space Board of Trustees (OSBT) and City Council.
