

Project Prioritization Criteria

As part of the Master Plan update the city is seeking feedback from the community on how we should prioritize future flood mitigation projects. The criteria in this activity were developed based on feedback we heard from the community on issues and values which were important.

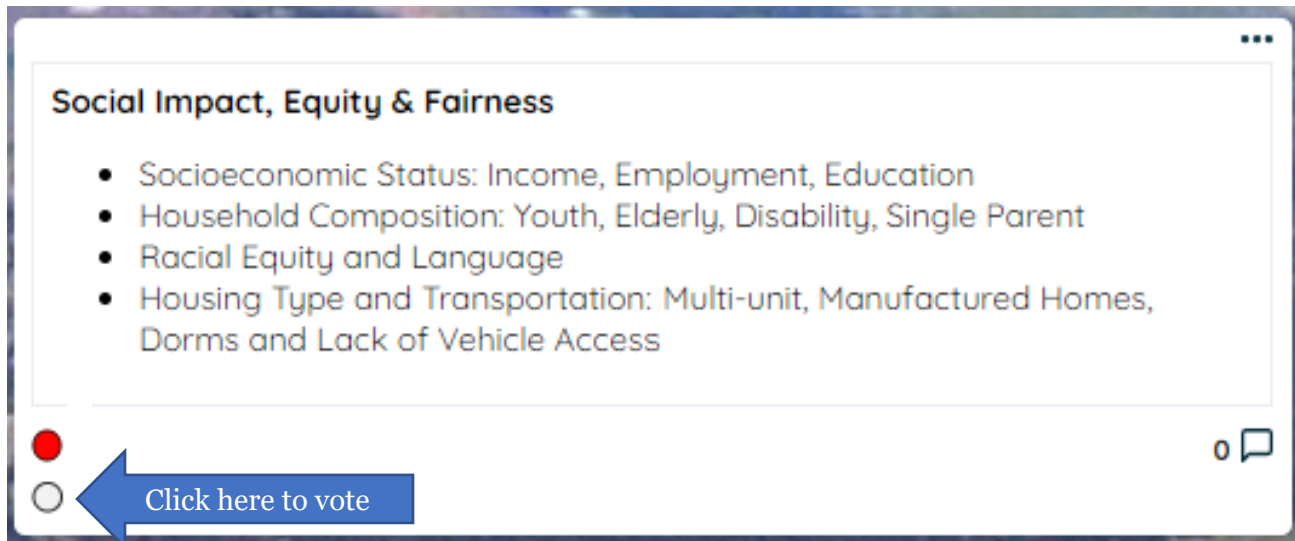

<https://dotstorming.com/b/614a63c2afdfb67f1da98caa>

Please visit the link to participate in the activity. In the activity, you will be given 20 votes, each one represents a value of 5%. Please weight each criterion by clicking on the grey outlined dot for that criterion. You can vote for the criteria as many times as you have votes remaining.

The bullet points on each criterion card are there to help define the criteria.

EXAMPLE: You believe Social Impact, Equity and Fairness should be a 20% weight, click on the outlined dot FOUR times under that category. Please use **all** your votes.

Once your vote counter is at zero (0), you are done and can either close your browser or click on the blue box at the upper right side of the screen. Voting will remain open through December 31st.

Thank you for your interest! If you have any questions, please email: cfsinfo@bouldercolorado.gov or call Laurel Olsen at 303.441.3203
