REVIEW TYPES AND FEES

- Listed below are the review types that are reviewed through an Administrative Review process, their associated code sections, application requirements and application fees.
- If more than one review is requested, the fee for each review is required at application intake.
- For application types that list an attachment, refer to the relevant attachment in the [Application and Forms Database](#), otherwise, refer to keyed requirements on page 3.

APPLICATION FEES

Please note that applications for administrative reviews are not subject to hourly billing and are not meant to be iterative. The application fee covers one staff review. If an application is incomplete or cannot be approved after the initial staff review, a full resubmittal, including a new application and fee, will be required. Typically, corrections to plans will not be accepted, however, staff will use their discretion in determining whether minor corrections can be accepted. Contact Planning & Development Services staff for additional information.

REQUIRED APPLICATION MATERIALS

COMPLETE APPLICATIONS MUST INCLUDE:

One (1) electronic copy, of each required application material. *Files must be saved using the file name indicated in the [Online Development Review Application Guide](#).*

Incomplete applications, applications that are not collated or that include oversized plans will NOT be accepted.

Req. #	Document Description
1	Completed Administrative Review Application
2	Vicinity map (8 1/2" x 11") indicating the site and adjacent streets.
3	Written statement that describes the proposal and indicates how the application meets all applicable review criteria. (See applicable code section.) Include a description and calculation of information relevant to the review request (e.g. number of rooms, seats, parking spaces, landscaping and requested variations).
4	Site development plans , drawn to a standard scale not less than 1" = 20' showing the major details of the development, including the location of existing and proposed buildings, usable open space, off-street parking areas, off-street loading areas, service and refuse areas, means of ingress and egress, circulation pattern, landscaping, screening, signs and all easements. (The site plan should be based on an improvement survey or improvement location certificate for the property, if one is available.)
5	Floor plans/ Elevations of the existing structure and any proposed additions, renovation or new structures. If new exterior construction is proposed, also include elevation drawings of the existing structure and proposed construction.
6	Improvement survey or an improvement location certificate by a registered surveyor.
7	Written approval from the affected adjacent property owners of the required variance. Approval may be indicated either in the form of a signed letter of authorization or signatures on proposed plans. When determining adjacent properties, streets and alleys are ignored. Generally, properties on either side, across the street and behind the subject property are affected properties. For questions contact the Planning & Development Services Center.
8	On the required site plan, show how the total number of required parking spaces can be accommodated on-site and note that this land will be reserved for future parking.
9	All required materials as listed in the Administrative Solar Exception attachment, including but not limited to an actual shadow analysis, addresses and legal descriptions for the subject and affected lots, and written approval from affected property owners.
10	A shadow analysis plan and master utility plan
11	A completed Sign Posting Acknowledgment Form signed by the applicant, indicating that the applicant understands his/her responsibility to post a public notice sign on the subject property. Sign will be provided at the time of application.
12	A written statement addressing the exception criteria of Section 9-9-5, B.R.C. 1981 .
13	A written statement that explains what undue hardship would result if an extension were not granted
14	A written statement that explains how the proposed use will have similar or less impacts than the replaced use and will not result in an "expansion of a nonconforming use" (see definition in Section 9-16, B.R.C.).
15	A written statement that identifies the case number of the development approval requested for extension, the address or street location of the site, the reasons why the extension is requested, the work done to date by the applicant to implement the original approval, whether this is the first or second extension, and whether additional requests for extension are anticipated; and one copy of the Notice of Decision document for the original approval.

Req. #	Document Description
16	A written statement that describes the existing uses and condition of the property included in the rescission request, the case number of development approval requested for rescission, the intended use of the property and an explanation of how the request complies with the criteria for granting a rescission identified in Section 9-2-12 (e) B.R.C. 1981 .
17	A written statement that includes the existing address, requested address, legal description and explanation of why a change of address or street name is requested and how the change is consistent with the city's addressing/street naming system. For property address changes: attach three (3) copies of a vicinity map, not smaller than 8 ½" x 11", showing the affected property and an area not less than 300 feet radius around the property, indicating all the street names and property addresses within the radius.
18	For street name changes: a vicinity map, no smaller than 8 ½" x 11", showing the extent of the street proposed for name change and area of at least 300 feet beyond the street corridor in all directions, showing all the street names in that area, all the lots adjacent to the street proposed to be renamed and a chart identifying the owners of each lot adjacent to the subject street.
19	A current title insurance commitment or attorney memorandum, based on an abstract of title, current to within 30 days.
20	Comparison of operational characteristics of previous and proposed restaurant uses to include at a minimum: hours of operation, description of the use, general floor plans, number of indoor and outdoor seats, square footage of patio, number of employees, required parking and alcohol service.
21	Copy of State Zoning Approval form
22	Written statement and supplemental materials that addresses the Eligibility Standards and all of the Application Requirements of 9-9-17(h) B.R.C. 1981 (note: this may include providing survey plats or other accurate drawings showing lot lines, dimensions, and topography of the lot on which the solar energy system is or will be located and all surrounding properties that are intended to be subject to the permit).
