Support for the Preliminary Proposal

Support for Alternative B

Support Another Alternative

Top 3
reasons in
support of
Alternative B

n = 1,215	Total	Rank
Increases access for people with different abilities	843	1
Increases access for an aging population	712	2
Supports reduced trips by car	536	3
Consistent regulations with Boulder County and city paved greenway paths	341	4
Incentivizes people to exercise more	323	5
Rules will be easy to understand and follow	255	6
E-bikes are fun to ride	216	7
Supports mental health	128	8
Other (please specify)	71	9

Top 3
reasons in
support of
Alternative A

n = 284	Total	Rank
It provides the most access for people with different abilities	232	1
E-bikes should be allowed everywhere traditional bikes are allowed	204	2
It provides the most access for an aging population	182	3
It has regulations that are the easiest to understand and follow	120	4
It better supports reduced trips by car	92	5
It better incentivizes people to exercise more	86	6
It better supports mental health	55	7
E-bikes are fun to ride	34	8
Other (please specify)	17	9

Top 3
reasons in
support of
Alternative C

n = 145	Total	Rank
It best addresses my concern for visitor conflicts and safety	91	1
It has the least potential to displace other visitors	66	2
It allows use of regional and interconnected trails	63	3
It still improves access for people with different abilities	44	4
It still supports reduced trips by car	44	4
It better protects natural resources and wildlife	42	5
It provides an alternative to disposal while limiting e-biking on the OSMP trail network	41	6
It still improves access for an aging population	33	7
It still incentivizes people to exercise more	14	8
It still supports mental health	11	9
Other (please specify)	8	10
E-bikes are fun to ride	2	11

Top 3 reasons in support of Status Quo

n = 652	Total	Rank
E-bike rider travel speed	484	1
I do not agree that the electric-assist is non-motorized	317	2
Allowing e-bikes on multi-use trails would cause visitor conflict.	264	3
E-bike use displacing other types of visitors	202	4
E-bike use impacting trail conditions	174	5
E-bike use disturbs wildlife	132	6
Other (please specify)	103	7
Allowing e-bikes on select, but not all, multi-use trails would be confusing for visitors to understand regulations.	102	8
E-bike use increasing visitation levels	98	9
E-bike noise level	41	10
Riding an e-bike is not earning your ride	28	11
E-bike rider travel speed	484	1

Familiarity with e-bikes

Own an e-bike

n = 2,293

Ridden an e-bike

n = 2,297

History visiting open space

n = 2,320

n = 2,252

Arrival and Primary Activity

Mode of Arrival

n = 2,268

Primary Activity

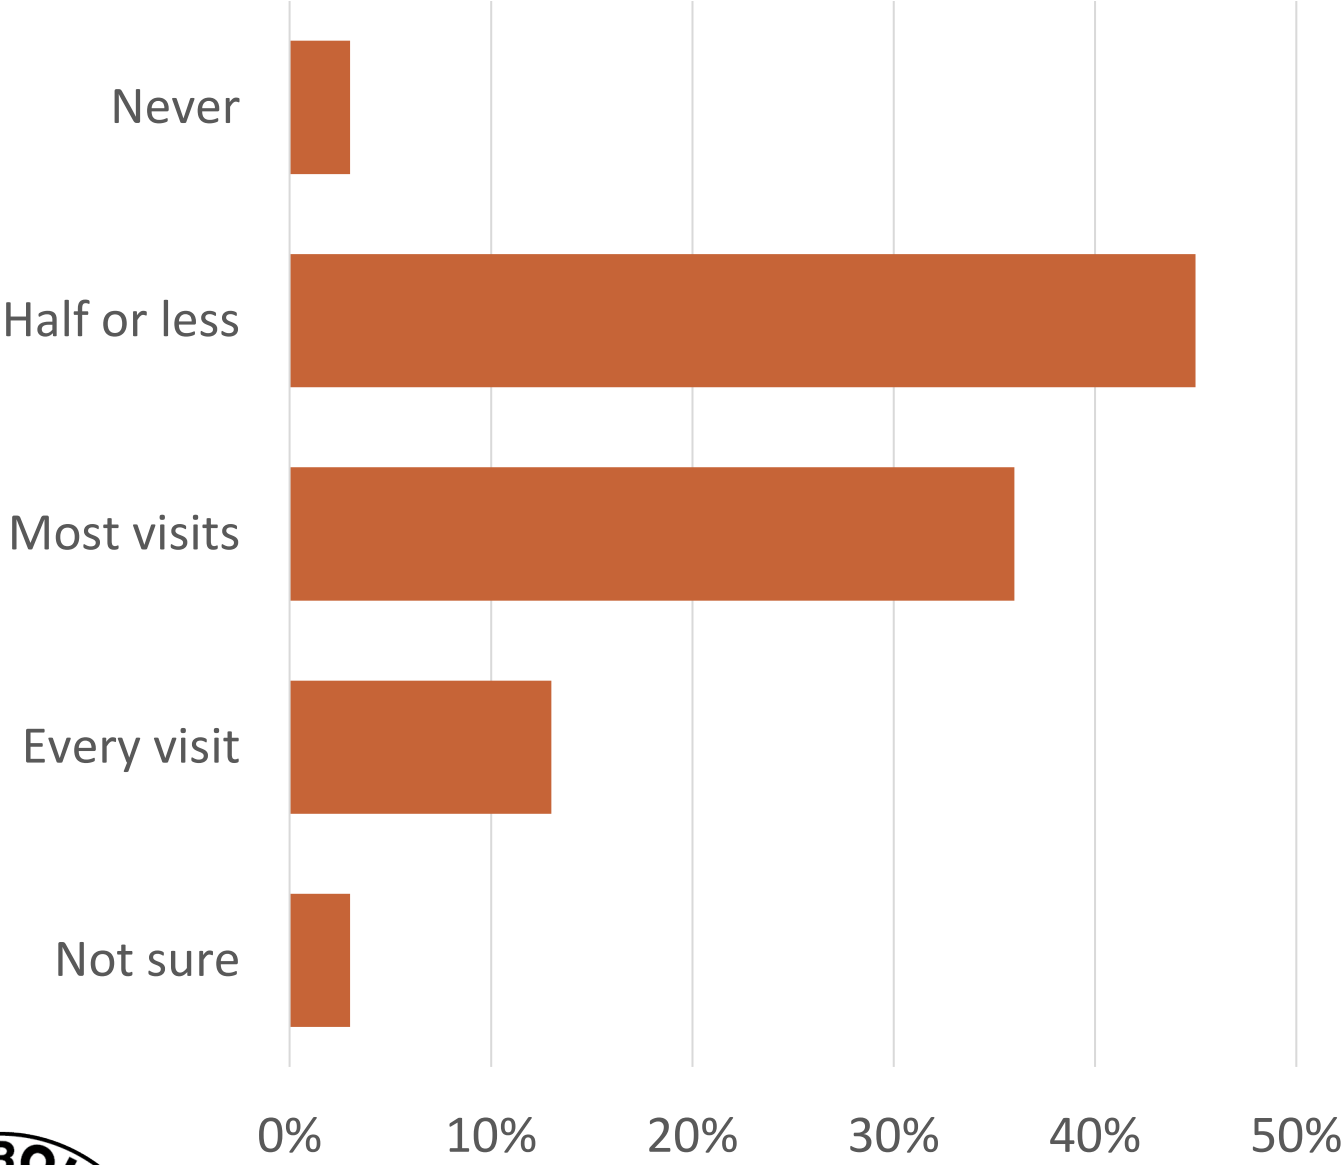

n = 2,273

Visits to OMSP trails

Multi-use trails

n = 2,248

Trails that don't allow bikes

n = 2,196

Likelihood to ride e-bikes on OSMP trails that allow them

n = 2,316

Would allowing e-bikes....

Change how often you visit these trails?

n = 2,317

If yes, how would you change your visit

n = 1,353
